

Just Dance Academy
Health & Wellness Guidelines
Updated November 28, 2020

The following policies and procedures are in addition to our standard company agreement. Please read through the following before attending any classes at JDA and keep this copy for your records.

- Only registered students are permitted to enter the studio. The front doors will remain locked at all times to minimize traffic in and out of the studio. Students must be dropped off at the door where they will be escorted in by a faculty member. All siblings, parents, family members, etc. must wait in the hallway or outside of the studio. Parents will wait outside of the studio doors to pick up their child.
- All students must use hand sanitizer immediately upon entering the studio space. Students may be asked to use hand sanitizer several times throughout class.
- Students, family members, and staff must wear a face mask at all times. This includes entering the building, inside the dance studios, in the student locker room, and in the bathroom. Dancers are not allowed to remove their face coverings unless they are given a designated mask break by a faculty member.
- Dancers and families should respect social distancing guidelines both in and out of the dance studio.
- Each dance space is equipped to hold 15 dancers in their own 6x6 space. We have marked the floor to help students maintain their own dance space.
- Dancers will be given a basket to keep their belongings in at the studio. Baskets will be spread out throughout the studio to help minimize contact between students belongings. Dancers should bring only what they need into the studio including their water, dance shoes, and their mask. Shoes are to be left in the hallway per usual.
- Air purifiers with HEPA filtration systems are placed throughout the studio to help improve air quality.
- Sanitization foggers are used in between all classes in the dance rooms. The sanitation fogger system is also used in our daily deep cleaning routine.
- Students should arrive no more than 10 minutes before their class is scheduled to start to use the bathroom and prepare for class. Students with breaks in between classes are permitted to stay in the locker room with their mask on. We encourage dancers not to linger once their classes have ended for the day.
- We ask that all dancers use the bathroom ahead of their class time to limit entrance traffic during class.
- All staff members will have their temperature checked before the start of class and log the information. Students will not have their temperatures checked or logged at any time.
- We will not be offering snacks at the snack bar. If you need to purchase a water, please let a staff member know and we will get it for you. If a student does not have \$1 for a water, the amount will be added to your account.
- Students who are displaying any of the following symptoms should NOT be attending dance classes
 - *Fever, chills, cough, shortness of breath/difficulty breathing, fatigue, muscle/body aches, headaches, sore throat, congestion/runny nose, nausea/vomiting, diarrhea.*
- If a student displays any of the symptoms listed above, a parent will be notified and the student will need to be picked up immediately.
- The studio will be thoroughly cleaned, sanitized, and disinfected between classes. A deep clean will be done at the end of each night.
- If your dancer is exposed to or contracts COVID-19 we ask that you notify the us immediately so that we can create a plan of action for returning to class.
- If at any time we become concerned for the health and wellness of our students and staff, we may host classes digitally until safe to resume in-studio.
- If at any time we are forced to close our studio doors due to government regulations, we will continue to host classes via Zoom.
- Out of an abundance of caution, any student who has traveled out of state will attend virtual dance classes for two weeks.
- Any student who contracts COVID-19 will require a negative PCR test in order to return to dance classes in-person.
