Just Dance Academy
Health & Wellness Guidelines
Updated August 20, 2020

The following policies and procedures are in addition to our standard company agreement. Please read through the following before attending any classes at JDA and keep this copy for your records.

- Only registered students will be permitted to enter the studio. The front doors will remain locked at all times. Students must be dropped off at the door and a faculty member will escort them inside. All siblings, parents, family members, etc. must wait in the hallway or outside of the studio. Parents will wait outside of the studio doors to pick up their child.
- All students must use hand sanitizer immediately upon entering the studio space. Students may be asked to use hand sanitizer several times throughout class.
- Students and staff must wear a facemask when entering the building. Face coverings must be worn until all dancers are in their designated dance space inside the studio. Dancers are not allowed to remove their face coverings until their teacher instructs them to. If at any time we feel spatial distancing is not feasible, dancers will be required to put their masks back on.
- Dancers and families should respect social distancing guidelines both in and out of the dance studio.
- We will be keeping the front door locked to minimize traffic in and out of the studio.
- Each dance space is equipped to hold 15 dancers in their own 6x6 space. We have marked the floor to help students maintain their own dance space at all times. Dancers will use the same space for the entirety of class.
- Dancers will be given a basket to keep their belongings in at the studio. Baskets will be spread out throughout the studio to help minimize contact between students' belongings. Dancers should bring only what they need into the studio including their water, dance shoes, and their mask. Shoes are to be left in the hallway per usual.
- No dancer is permitted to enter the studio before their scheduled class time. Dancers should arrive 5-10 minutes before class begins to use the bathroom and prepare to start classes.
- Students should exit the studio as soon as their last class ends. Students who have breaks in between classes must wear their masks for the duration of the break.
- We ask that all dancers use the bathroom ahead of their class time to limit entrance traffic during class.
- All staff members will have their temperature checked before the start of class and log the information. Students will NOT have their temperatures checked at any time.
- We will not be offering snacks at the snack bar for the time being. If you need to purchase water, please let a staff member know and we will get it for you. No student should be going behind the snack bar at any time.
- Students who are displaying any of the following symptoms should NOT be attending dance classes
    - *Fever, chills, cough, shortness of breath/difficulty breathing, fatigue, muscle/body aches, headaches, sore throat, congestion/runny nose, nausea/vomiting, diarrhea.*
- If a student displays any of the symptoms listed above, a parent will be notified and the student will need to be picked up immediately.
- The studio will be thoroughly cleaned, sanitized, and disinfected between classes. A deep clean will be done at the end of each night.
- If your dancer is exposed to or contracts COVID-19 we ask that you notify the us immediately.
- If at any time we become concerned for the health and wellness of our students and staff, we may host classes digitally until safe to resume in-studio.
- If at any time we are forced to close our studio doors due to government regulations, we will continue to host classes via Zoom.
